Patrick Frank, Principal, Patchbay Media
 I'm Patrick and I make videos for world-changing organisations. At Patchbay, we specialise in documentary, animated, and remotely-produced videos for awareness, advocacy, and fundraising. We work with nonprofits, charities, and government agencies (and the consultants and agencies that support them) to produce delightful, informative, and heartwarming videos that strengthen the impact of ideas, campaigns, initiatives, and events. I spent 14 years in Washington, DC before relocating to London in the summer of 2022. When I'm not making videos you can find me running in Hyde Park, catching a rock show or playing the drums, and chasing my 2 boys around. Email me anytime! Ask me about the last great album I listened to - I love FINDING people who have incredible stories. I interview them edit the footage, and share it with the world. For example 1. Mom whose son has diabetes, who is an advocate for Spanish-speaking T1D community. 2. Financial planner donating his time by helping a family dealing with serious cancer diagnosis creating

 a budget and plan for the future. 3. Personal trainer who survived breast cancer and alcohol addiction becoming a sober coach/body building champion. I want people to know that it's not that hard to create positive change or make an impact. You don't need millions of voters, you just need a single person or a small, determined group to make a community aware of an issue, and then work together deliberately to make change.
